Special insurance funds are established to provide a depository for receipts resulting from insurance coverage carried by the district and such receipts are to be spent for repairing or replacing the losses that caused the insurance receipts. Receipts and expenditures of insurance funds are not applicable to current operations, nor are they considered to affect an increase in capital assets; therefore, they are not included in summary reports of receipts and expenditures.

Table No. 29 - Other Funds Expenditures, 1978-79 Fiscal Year. 96
Table No. 30 - Other Funds Expenditures, 1979-80 Fiscal Year. 102

Other funds, in addition to the four funds described above, may be established to serve as depositories for receipts that are earmarked for application either by the donor of the receipts or by the permissive authority of the district to establish special funds. All such funds maintained by school districts are not reported here. Many of them are opened and closed as needs demand. Many of these fund transactions are transfers of money from one to another. The effects of the transactions of these funds are manifest only in regard to their current receipts and expenditures; therefore, only such current receipts and expenditures are shown.
